

REMARKS

Please enter the amendments shown above to the claims. Unrelated to patentability, the applicants have amended claims 1, 3, 4 and 11-18 to clarify their meaning. In particular, the applicants have replaced references to “packet control unit” and “PCU” with “packet controller” to more clearly express that the “packet control unit” / “PCU” of the original claims is not merely intended to refer to GPRS packet control units, but to packet controllers more generally. The applicants believe that the use of the same terminology as is used in GPRS may cause confusion when reading the claims; thus, the present claim amendments have been submitted for entry.

The Examiner is invited to contact the undersigned, if such communication would advance the prosecution of the present application. Lastly, please charge any additional fees (including extension of time fees) or credit overpayment to Deposit Account No. **502117 -- Motorola, Inc.**

Respectfully submitted,
J. Smolinske et al.
